

From Yesterday's Late Edition.

RECORD BREAKER.**Netters Strike the Best Fishing of the Season.**

Land Almost \$5000 Worth of Mackerel To-day.

This is the biggest day of the season on Cape Ann for the mackerel netters. At Fort wharf, up to 1 o'clock these little boats had landed not less than 40,000 fine fresh mackerel as the result of their last night's work. At Rockport, in addition, 12,000 fresh mackerel were landed to-day.

Among the late arrivals were the following:

Sloop Helena, 4500 mackerel.
Sch. Fitz A. Oakes, 2600 mackerel.
Sch. H. M. Morris, 500 mackerel.
Sloop Little Pete, 1200 mackerel.
Sch. Freedom, 5000 mackerel.

The price is way up, considering the number of fish in, being from 9 to 9 1-2 cents apiece, which means that almost \$5000 will be paid to the lucky, hard-working netters for their night's work.

Beside the netting arrivals mentioned above and in our first edition, five or six other small boats also arrived with from 500 to 1500 mackerel each.

The sloop Thistle had 4000 mackerel instead of 900 as first reported.

The fact that the netters have struck such good fishing tends to show that the fish have not left our shores but have only gone down for a while and will probably bunch up and school before they depart.

Mackerel Still Going Up.

Mackerel took a move of 50 cents this morning, the fare of sch. Vera selling to George Perkins & Son at \$16.50 per bbl.

The Labrador Catch.

The Labrador catch this season will be much shorter than that of last year. Up to date there has been cleared from the coast 170,000 qtls., as compared with 230,000 to the same time last year. This shows a falling off of 60,000 qtls., while it is estimated that the floating craft bringing their fish south will be much below '99. One thing in favor of the planters is that excellent weather has helped cure the fish quickly and vessels are off to market with but little delay.

Good Trip.

Sch. Gloriana arrived at Boston this forenoon with a trip of 72,000 pounds of fresh mixed fish, of which 50,000 were cod, and as prices are high, an excellent stock will be made.

The schooner lost the greater portion of her fishing gear on La Have Bank in the gale of September 13.

Digby Haddockers Starting.

The Digby, N. S., fleet start in on their haddock trips this week, as the putting up of finnan haddies has now commenced, with a fair demand for that article in St. John and other places in the west. One schooner, the J. Cousins, built at Shelburne, has been added to the Digby fleet within the year.

A fleet of 50 or more mackerel catchers has been in harbor at Provincetown during the past three days, prevented by fog and east winds from pursuing their vocation off Highland light.
